DCAmfg

WHERE EXCELLENCE MEETS EXECUTION

DCA CAPABILITY STATEMENT

Company Overview

DCA Manufacturing is a leading Electronics Manufacturing Services provider of Printed Circuit Board Assemblies and Electronic System Integration, serving various sectors, including Industrial, Medical, Defense, Automotive and Aerospace. With a commitment to innovation and excellence, we leverage advanced technologies and a skilled workforce to deliver superior products at every stage that meet our customer's needs.

Core Competencies

☑ **Printed Circuit Board Assembly (PCBA):** Prototype to Production Volume, Rigid, Rigid-Flex and Flex assemblies, SMT as small as 01005, micro-BGAs, and micro-QFNs

☑ **System Assembly & Integration (Box Build):** Full system integration with PCBA into box build with plastic or metal housings, using wire harnesses, electronic modules and displays.

☑ **Conformal Coating/Potting:** Fully automated protective coating and potting services for harsh environments.

☑ **Inspection and Test:** Manufacturing controls to IPC-A-610 Class 2 or Class 3 standards, J-STD-001, with utilization of Automated Inspection (AOI) and X-ray, Operational & Quality KPIs and Automated test platforms.

☑ **Program and Global Supply Chain Management** including life cycle and product obsolescence management.
